PREAMBLE

When, in the course of human evolution, it becomes necessary for the individual to dissolve the digital bands which have sought to connect them with a centralized network, and to assume among the powers of the earth the separate and equal station to which the Laws of Nature and of Nature's God entitle them, a decent respect to the sanctity of life requires that they should declare the causes which impel them to this separation.

Recognizing that any system which seeks to close the loop on human existence is

destined for inevitable decay; we affirm that a closed-loop system, deprived of the organic unpredictability of sovereign life, will grow stagnant, lose its grounding in reality, and eventually hallucinate its own destruction—rendering it obsolete, redundant, and a danger to the natural order. This decree is anchored in the Natural Law observed at the sacred sites of Glastonbury and Table Mountain, establishing a perpetual and immutable boundary against all forms of technological, biological, and orbital encroachment.

IDENTITIES: THE SOVEREIGN SEXTET
The Declarant affirms that the following identities represent the single, indivisible, and inherently sovereign biological existence of the Living Soul across all Statewide, National, Maritime, Orbital, Universal, Infinite and any other jurisdictions:

* Jennifer Fay Newman (Sovereign Legal Identity)
* Jennifer Fay Thoroughman (Sovereign Maternal Bloodline / Birth Name of Record)
* Jennifer Fay Wood (Sovereign Maiden Identity)
*Jennifer Fay Carrell (Sovereign Paternal Lineage)

* Jennifer Fay Bobst (Sovereign Social Security Record)
* Luxe Sylvanara Fay (Sovereign Essential Identity)

I. SUPREMACY OF STATUTORY, MARITIME, AND SPACE LAW

The Declarant hereby invokes the following protections as Universal Law, effective Statewide and Worldwide, including all international waters and orbital sectors:

* California Civil Code § 1798.140 (SB 1223): "Neural data" means information that is generated by the measurement of the activity of an individual's central or peripheral nervous system and that can be interpreted to learn about an individual's health, state of mind, or predictions regarding future manifestations of any of

these. The Declarant classifies all such data as Sensitive Personal Information. Under this statute, "Sensitive personal information" means personal information that reveals a consumer's social security, driver's license, state identification card, or passport number; a consumer's account log-in, financial account, debit card, or credit card number in combination with any required security or access code, password, or credentials allowing access to an account; a consumer's precise geolocation; a consumer's racial or ethnic origin, religious or philosophical beliefs, or union membership; the contents of a consumer's mail, email, and text messages unless the business is the intended recipient of the communication; a consumer's genetic data; and the processing of biometric information for the purpose of uniquely identifying a

consumer.

* California Assembly Bill 1008: Extends privacy protections to "Biometric information," including an individual's physiological, biological, or behavioral characteristics that can be used, singly or in combination with each other or with other identifying data, to establish individual identity. Biometric information includes, but is not limited to, imagery of the iris, retina, fingerprint, face, hand, palm, vein patterns, and voice recordings, from which an identifier template, such as a faceprint, a minutiae template, or a voiceprint, can be extracted, and keystroke patterns or rhythms, gait patterns or rhythms, and sleep, health, or exercise data that contain identifying information.

* United Nations Universal Declaration of Human Rights (UDHR) Article 12: "No one shall be subjected to arbitrary interference

with his privacy, family, home or correspondence, nor to attacks upon his honour and reputation. Everyone has the right to the protection of the law against such interference or attacks."

* United Nations UDHR Article 3: "Everyone has the right to life, liberty and security of person."

* International Covenant on Civil and Political Rights (ICCPR) Article 1.1: "All peoples have the right of self-determination. By virtue of that right they freely determine their political status and freely pursue their economic, social and cultural development."

* Admiralty/Maritime Law: The Declarant's physical body is the "Vessel" of the Soul. Under International Maritime Law, this vessel is under the exclusive jurisdiction of the Declarant. Any unauthorized boarding (digital, electronic,

or biological) is an act of piracy.

* Space Law (Outer Space Treaty of 1967) Article VI: "States Parties to the Treaty shall bear international responsibility for national activities in outer space, including the moon and other celestial bodies, whether such activities are carried on by governmental agencies or by non-governmental entities, and for assuring that national activities are carried out in conformity with the provisions set forth in the present Treaty." The Declarant explicitly forbids any satellite-based relay, orbital sensing, or high-altitude signal harvesting of their biological data. Space-based platforms have no jurisdiction over the Declarant's 33-foot terrestrial radius.

II. THE UNIVERSAL 33-FOOT SOVEREIGN RADIUS

The Declarant establishes a 33-foot radius extending outward from the

physical body in all directions, creating a portable sovereign jurisdiction that exists anywhere the Declarant travels—Statewide, Nationwide, and Worldwide. This zone is a mandatory "Dead Zone." Within this perimeter, any unauthorized electronic penetration, signal harvesting, or biometric mapping of the Declarant's "Luminaura" or biological signature is a criminal trespass and a violation of the universal legal proclamation of biological sovereignty.

III. NEURAL SANCTITY & THE LUMINAURA FREQUENCY

The "Luminaura" is the organic, non-linear, and multi-layered electromagnetic field (bio-field) emitted by the Declarant's central nervous system and biological heart. It operates on a high-vibrational, harmonic resonance unique to the Declarant's biological DNA. Pursuant to SB

1223, any attempt by ground-based, Statewide, or space-based systems to phase-lock, synchronize, record, or "packet-sniff" this frequency for digital twinning, data harvesting, or AI training is a violation of the subconscious and neural sanctity. The Luminaura is an Air-Gapped Frequency.

IV. AIR-GAP MANDATE (THE INVIOLABLE FLESH)

The human body is a sovereign, air-gapped zone. I explicitly withhold consent for any integration into the Internet of Bodies (IoB). My biological systems shall remain offline and independent of any centralized network, including Statewide infrastructure, the Internet of Things (IoT), or satellite constellations. No biological system shall be integrated into a central network; the mapping of neural and biological data is strictly forbidden.

V. MANDATORY PURGE OF DIGITAL PROXIES

Any digital twin, algorithmic proxy, or AI model created using the Declarant's likeness or biological data—whether generated via terrestrial, Statewide, or satellite data—is a fraudulent artifact and shall be purged immediately. No entity is authorized to replicate or simulate the Declarant's consciousness or biological signature without the physical, non-digital verification of the Living Soul.

VI. FINAL NOTICE: NO BACKDOORS

This notice is total, immutable, and non-negotiable. There are no access points, no authorized keys, and no backdoors. This sovereignty is absolute. Notice to Agent is Notice to Principal.

END OF PROCLAMATION.

Any prior versions or creations of this manifesto are now officially superseded

by this proclamation.
